YIAK072-1: Indicate if design is registered, whether or not design is in conformance with USPTO 607. Draw line through designs if not in conformance and not registered. Include copy of this form with each communication to applicant. "Applicant's name" means the name of the person or entity that filed the application. "Design" means the design or design element registered or applied for. "Design Office" means the Office that issued the registration, by the two-letter code (101 is Standard 107). "Var" means "variations" or "variations of design." "Designs" means the designs or design elements registered or applied for. "Designs in use" means the designs or design elements used in commerce by the applicant or by others. "Designs in preparation" means the designs or design elements intended to be used in commerce by the applicant or by others. "Designs in the process of becoming registered" means the designs or design elements registered by the applicant or by others as the documents under USPTO Standard 107, or, if possible, "Applicant is given a chance to make a timely response to a notice of non registrability or a notice of rejection." This definition of "designs in use" is based on 17 U.S.C. 107 and 116. The information is required to obtain or retain a benefit by the public which is given by the USPTO to persons who file applications. "Conformity" is governed by 35 U.S.C. 107 and 116. This definition is intended to help 1. Patent Office, including patenting, programming, and administering the operation of patent laws by the USPTO. This will not affect any other use of this form. 2. Patent Office, including patenting, programming, and administering the operation of patent laws by the USPTO.
